## Flake Cut

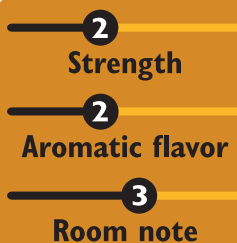

The tobacco is pressed into blocks and stored for minimum 30 days before they are cut into flakes. Finally the flakes are hand packed to protect the tobacco from breaking up.

The flake is manufactured from Virginias out of 2 continents. Both a bright yellow and a darker Virginia have been used combined with a Modern Cavendish. To secure a soft and smooth smoke a touch of Burley has been added. This flake gives you the natural sweetness from the Virginia tobaccos combined with a slightly detectible topping of sweet, ripe fruit. Furthermore your surroundings will appreciate the pleasant room note.

## Loose Cut

Virginia, Modern Cavendish and Burley are manufactured separately, and finally the tobaccos are gently hand blended into the final blend.

The Modern Virginia Loose Cut is manufactured from Virginias out of 2 continents. Bright yellow and a darker Virginia have been used combined with a Modern Cavendish, to secure a soft and smooth smoke with a touch of Burley. This blend provides you with the natural sweetness from the Virginia tobaccos combined with just a slight topping of sweet, ripe fruit. Furthermore your surroundings will appreciate the pleasant room note.
